

Canadian Cancer Society Volunteer Driver Program

The Canadian Cancer Society provides a variety of services to help people living with cancer.

Through the Volunteer Driver Program, friendly, trained volunteers drive cancer patients to and from treatment related appointments.

This service is provided by the Canadian Cancer Society in partnership with the Freemasons for cancer patients with no other means of transportation.

- Passengers must be able to get in and out of a car without assistance and be willing to share rides.
- Depending on demand for services, one to two days advance notice may be required, as well as flexibility in pick up and departure times.

For further information and to determine if there is a volunteer available in your community, please phone one of the numbers listed on the reverse.
